

Virtual Highschool of
Excellence

Your Gateway to Quality Online Education

*"I have two daughters whom have attended VHSE for the last two years. Dr. Chung has been an outstanding Director and has put into place an amazing group of teachers for the students."
- Ms. Cox*

- We provide 9-12 curriculums that are aligned and articulated with state and national standards for university and college acceptance while promoting academic **EXCELLENCE**.
- Virtual High School of Excellence is an Accredited Private School providing **QUALITY** online and distance education worldwide.

"My daughter was failing Chemistry 1 while in public school but now since she has been taking courses on line through Virtual, she has made "A"s and "B"s as well. And it's the same Chemistry 1 that she was taking in public school, she's doing better because she's able to self pace to understand each phase that she's working. The public school teacher had to move on to each phase by a certain time frame and it was hard for the student to catch up." - Lavette

ACCREDITATIONS & MEMBERSHIPS

"At fifteen, my son moved from home in order to play hockey. It was January, and he needed a flexible accommodation in order to complete his education. The Virtual High School provided that, and more. He moved, first to Boston, then to Iowa and South-east Washington. Later to California, Michigan, Montana, Texas, and Alberta. All to play hockey. As you can see, there is literally no way that he could have completed an education without VHSE." - Thomas E.

“Overall I am very happy with Virtual High School of Excellence for my children they are doing much better than they were in public school and they are happy that they can see the improvement they have made with their hard work and efforts. My son is especially happy that he no longer has to take the medication for the "ADD" and still make honor roll grades.” -

Lavette

"...basically I am saying a great big thank you. Because of you I can continue playing my instrument in orchestra which is bass. I also will get to graduate on time with my friends which 3 years ago didn't seem like the slightest possibility. I also have a chance to go to college and pursue my dream career. I am eternally grateful. Thanks for all you have done."

- Hannah Kosek

OUR MISSION

The mission of Virtual High School of Excellence is to provide academic, cultural, and pragmatic excellence worldwide by developing student leadership, team concepts, and life-long learning in a holistic online academic and work environment.

OUR CORE VALUES

Flexibility. High Academic Performance. Accessibility. Respect. Trustworthiness. Individualism.

"VHSE makes the education process a very positive experience. Both my daughters have struggled in public school environments due to difficulties with slower reading and writing skills. With VHSE their learning is done at a pace in which they can feel success without the stress of being placed in a classroom setting that makes them uncomfortable." - Ms. Cox

"Virtual High School has been a life saver for me and my son...I would recommend VHS to any parent that is having behavior and academic problems with their child. Working one on one with your child can be very rewarding to you. Thanks again, VHS." - Kenya L.

DIRECTOR

At Virtual High School of Excellence, with our online instructional modality, it is both our challenge and our commitment to remain updated concerning these innovations and to ensure that our students are exposed to critical skills that are necessary for success in both their future educational endeavors and workplace experiences.

Enrolling in Virtual High School of Excellence is like making an agreement with this school, with your parents, and with yourself to be the best person you can be. In turn, we honor that agreement in our commitment to support, challenge, and encourage your academic abilities and efforts throughout your 9-12 academic school years.

"It took only an hour or so to get all the information required to have my kids enrolled and the fees aren't extremely costly as well; they even offered a discount for the second child. The curriculum is right on point with the public schools in some cases even better." - Lavette

"...the staff and instructors worked with him to assure that he received a quality education, that special timing requirements were met, that his participator credits from local High Schools were counted, and that he satisfied NCAA clearinghouse requirements. We are extremely happy that he enrolled in this program." - Thomas E.
